

REMARKS

The foregoing amendment adds a cross-reference to related applications and an abstract of the disclosure to the specification. Further, the claims have been amended to eliminate multiple dependencies. Where appropriate, the claims have been reworded in accord with U.S. practice. New claims 46 and 47 have basis at least in original claim 29. No new matter has been added.

A number of claims in the international application have been canceled by the present amendment, in order to lower initial filing costs. Applicants reserve the right, however, to claim the canceled subject matter herein or in a divisional or other continuing application.

Entry of these amendments prior to calculation of the filing fees and prior to examination of the accompanying 35 U.S.C. §371 application is respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
